

## MAKE GOOD CHOICES

- Stop and Think - Do you really need that extra pair of skis?
- Support environmentally sustainable companies
- Consider quality second hand goods
- Research the materials and fibres in your equipment

## TAKE CARE AND MAKE IT LAST

- Choose environmentally friendly waxes
- Take care of your gear to prolong its life. Tune it. Repair it. Fill it. Wax it.
- Store gear with a thick coat of wax, in a cool, dry area avoiding direct sunlight.

## AT THE END OF ITS LIFE

- Upcycle your skis and boards into fun creations
- Donate quality used gear to participants in you program
- Donate adaptive gear to smaller, less established programs
