

Protecting our environment and changes that you can make!

Spectacular mountain terrain, unspoiled surroundings and reducing our environmental impact at our ski hills is important to us.

Let the tracks of our skis and boards be the only thing we leave behind!

FACT: Buying a disposable cup every day creates 23 pounds of waste a year.

A reusable travel mug takes less than 20 uses to make it a more efficient replacement.

Before you go!

1

- Print info you can look at on your device.
- Pack you own mug, water bottle, food containers, cutlery, straw
- Bring your own refillable soaps and toiletries to avoid the small wasteful bottles at hotels.
- Choose the most sustainable travel mode possible – carpool, carbon offsets, public transport

2

At your Lodge!

- Reduce water usage, Re-use linen and towels. Keep showers shorter
- Reduce your energy consumption – turn off lights, keep heat to a minimum
- Reduce and recycle waste – take it home with you if recycling is not available
- Reuse your own refillable soap and toiletries containers

3

At the slopes!

- Reduce any garbage left on slopes by others – if you see it, pick it up
- Reuse your own mugs, water bottles, straws, containers etc.
- “Leave No Trace” at ski areas.
- Re-use trail maps instead of getting new ones every time you go skiing.
